Honor Society for International Scholars

Twenty-Sixth Annual Conference
April 12-13, 2012
Kansas City, Missouri

*Best Practices and Models of
Excellence in International Education*

Phi Beta Delta Honor Society

Greetings, All!

Welcome to the 26th Annual Conference of Phi Beta Delta in beautiful Kansas City! The program is exciting and full of interesting topics and useful information that we can all benefit from in our international efforts in the coming years. Dr. Joy Stevenson and the local committees and chapters are to be congratulated for putting together what will certainly be one of the most memorable meetings.

This year has been especially interesting for the Society with the change in headquarters to California State University San Bernardino in Southern California. Dr. Rueyling Chuang, Executive Director and Chief Executive Officer, and her staff have been working tirelessly and her efficient operations have made for a smooth transition from Washington DC. You will certainly appreciate all of this at the Conference as well as during the coming years.

At this Conference we are unveiling the new on-line journal, "International Research and Review: Journal of Phi Beta Delta Honor Society for International Scholars," the product of many years of work by our Director of Publications, Dr. Michael Smithee. We are excited about the potential impact of this publication on international studies and international education.

Student contributions at these Conferences are especially valuable, and we all appreciate the support of our own international programs staff and faculty in helping to make these events both possible and productive. We will all gain new perspectives on what it means to be an international scholar. I look forward to meeting many new and old friends at this Conference. Thank you for participating!

Dr. Richard L. Deming
2011-2012 Phi Beta Delta International President
Professor of Chemistry
California State University Fullerton
